PRESS RELEASE

Black Swans from Australia

Visitors to the Singapore Botanic Gardens will now be able to see two black swans in the Gardens' Lake. These rare birds which are indigenous to Australia are a gift from the Zoological Gardens, Western Australia to the Singapore Botanic Gardens.

The swans were flown out by a Royal Air Force transport aircraft.

The Singapore Botanic Gardens have at present a number of ducks in its Lake and the addition of these black swans would add to the interest and enjoyment of the visitors to the Gardens.

(Wong Hung Khim)
